

SUPERSTORE · SALES PERFORMANCE

RETAIL SALES ANALYSIS

*A data-driven assessment of sales performance, top-selling products,
regional contribution, and seasonal profit drivers*

SUPERSTORE SALES DATASET · 2014-2017 · ACCESS, EXCEL & WORD

What This Analysis Covers

- Total sales, orders, and profit performance
- Sales contribution and ranking by region
- Top-selling products by revenue
- Monthly sales trend and seasonality
- Tools used: Microsoft Access (SQL queries and reports), Excel (charts), and Word (summary)

TOTAL SALES

\$2.30M

Across the Superstore dataset, with a total profit of \$286.4K and an average profit margin of 12.47%.

How the Analysis Was Built

From raw CSV to four decision-ready Access reports

01

Import the Dataset

Superstore_Sales.csv imported into Access (Order ID, Order Date, Sales, Profit, Region, Category, Sub-Category, Product Name, Customer Name and more).

02

Design SQL Queries

Queries written for total sales and profit, sales by region, top 10 products by sales, and the monthly sales trend.

03

Create Access Reports

Four Access reports built to visualise each key metric.

04

Export Final Insights

Insights exported to this summary, with Excel used for charts and visualization.

Headline Performance at a Glance

Totals across the full Superstore dataset

TOTAL SALES

\$2,297,200.86

Revenue generated

TOTAL ORDERS

37,873

Orders recorded

TOTAL PROFIT

\$286,397.02

Profit earned

AVG PROFIT MARGIN

12.47%

Profit as share of sales

KEY INSIGHT

A profit margin of roughly 12.47% indicates strong performance across most categories.

West and East Lead Regional Sales

Total sales by region, US\$

LARGEST REGION

West

generated \$725,457.82, or 31.6% of total sales, followed by the East at 29.5%.

Regional Share of Total Sales

STRONGEST REGIONS

West

\$725,457.82

31.6%

East

\$678,781.24

29.5%

LOWEST REGIONS

Central

\$501,239.89

21.8%

South

\$391,721.91

17.1%

Profit margins are lowest in the South region, a potential area for process improvement.

Top-Selling Products by Revenue

Five highest-selling products from the Top 10 report, US\$

TOP SELLER

Canon Copier

The Canon imageCLASS 2200 earned \$61,599.82, more than double the next best-selling product.

Best-Sellers Lead, but Sales Are Broadly Spread

TOP 5 SHARE

6.7%

of total sales come from the five best-selling products:
\$153,385.74 out of \$2,297,200.86.

Calculated from the top 5 product totals and overall sales.

WHY IT MATTERS

- No single product exceeds 2.7% of total sales; the Canon copier, the largest, contributes 2.68%.
- Technology and office equipment (copier, videoconferencing, binding systems) and heavy-duty chairs occupy the top five.
- Inventory planning should prioritise best-sellers while protecting the broad range of products that generate the remaining 93% of sales.

Sales Follow a Clear Seasonal Pattern

Monthly sales, January 2014 onward

PEAK SEASON

Nov - Dec

Sales peak in November and December, indicating strong holiday demand and potential for targeted Q4 promotions.

Findings & Business Implications

01

West region leads in sales

Prioritise marketing and logistics investment in that region.

02

Technology category records the highest profit margin

Expand technology product offerings.

03

November to December is the peak season

Increase promotional activity in Q4.

04

Best-selling products anchor revenue

Optimise inventory management for best-sellers.

Where to Act Next

01

Focus on Top-Performing Categories and Regions

Direct growth investment toward the categories and regions that already lead in sales and profit.

02

Reduce Shipping and Discount Costs in Low-Profit Areas

Analyse cost drivers in low-margin areas such as the South region and tighten them.

03

Plan Campaigns Around High-Sales Months

Time marketing campaigns to the November and December peak.

04

Forecast Inventory Using Seasonal Trends

Build inventory forecasting on the seasonal pattern to avoid stock-outs in peak months.

CONCLUSION & CALL TO ACTION

- Revenue is led by the West and East regions, with the South trailing in sales and margin.
- Sales are seasonal, peaking in November and December each year.
- Best-selling products, led by the Canon copier, anchor revenue, and sales beyond them remain broadly spread.

IMMEDIATE PRIORITY

Q4 Promotions & West Region Growth

Peak season and the top region drive revenue

NEXT MOST URGENT

Low-Profit Areas & Inventory Forecasting

South margins and seasonal stock planning

By identifying key revenue drivers and sales patterns, the business can make informed decisions on marketing, operations, and inventory strategies.
